Thank you for choosing Ford. We recommend that you take some time to get to know your vehicle by reading this manual. The more that you know about your vehicle, the greater the safety and pleasure you will get from driving it. Driving while distracted can result in loss of vehicle control, crash and injury. We strongly recommend that you use extreme caution when using any device that may take your focus off the road. Your primary responsibility is the safe operation of your vehicle. We recommend against the use of any hand-held device while driving and encourage the use of voice-operated systems when possible. Make sure you are aware of all applicable local laws that may affect the use of electronic devices while driving. This 2008 Ford F-350 Owners Manual describes product features and options available throughout the range of available models, sometimes even before they are generally available. It may describe options that are not on your vehicle. It is possible that either Ford Motor Company or an authorized Ford dealer may have originally sold an incomplete vehicle to a vehicle modifier who upfitted it. As a result, some of the options and features on this vehicle may differ from what we describe in this manual. Note: Some of the illustrations in this manual may show features as used in different models, so they may appear differently to you on your vehicle. Note: Always use and operate your vehicle in line with all applicable laws and regulations. Note: Pass on this manual when selling your vehicle. It is an integral part of the vehicle. Note: Your vehicle's powertrain control systems can detect and store information about vehicle modifications that increase horsepower and torque output such as whether or not performance-enhancing powertrain components commonly referred to as performance chips have been used. This information will stay in the system's memory and cannot be erased even if the modification is removed. Ford Motor Company, Ford of Canada, Ford of Mexico and service or repair facilities can retrieve this information when servicing your vehicle. Ford Motor Company may use this information to determine if your warranty covers any needed repairs. Note: Some aftermarket products may cause severe engine, transmission and exhaust system damage. See your warranty information for more details. Your new diesel engine may feel, drive and function somewhat differently than a gasoline engine. Therefore, it is very important that you read and thoroughly familiarize yourself and others operating the vehicle with this guide. There is a special procedure for turning off the diesel engine. See Starting a Diesel Engine (page 176). It is important to read and understand this material in order to maintain the best service life for your engine. Ford may discontinue models or change specifications without any notice and without incurring obligations. This 2008 Ford F-350 Owners Manual may qualify the location of a component as left-hand side or right-hand side. The side is determined when facing forward in the seat.
